CHAPTER 1: INTRODUCTION OF DHIS & DHIS2

1.1 DHIS:

DHIS is a web-based information system to record and analyze Overall health facility utilization, Preventive Care Services i.e., immunization, family planning etc., Curative Care with mortality & morbidity, Obstetric and Neonatal Care, Financial Management, Logistics, Human Resources and timeliness, completeness, accuracy of reporting by primary and secondary health care facilities.

1.2 DHIS2:

DHIS 2 is a tool for collection, validation, analysis, visualizing and sharing data for all health programs. It is a generic tool rather than a pre-configured database application, with an open meta-data model and a flexible user interface that allows the user to design the contents of a specific information system without the need for programming. DHIS2 is a modular web-based software package built with free and open source Java frameworks developed by the Health Information Systems Program (HISP) at the University of Oslo (UiO). DHIS2 is the world's largest Management Information Software platform and is in use by 73 low and middle-income countries, covering at least 2.4 billion people. With inclusion of NGO-based programs in various countries, DHIS2 is in use in more than 100 countries now.

Following are the benefits which can be achieved by using DHIS2

- a) Provides a detailed picture of all the activities of public health facilities at a single point which enables to design effective policy and future oriented decisions.
- b) No programming helps to start DHIS2 in a new setting. Flexible user interface allows customization and local adaptation.
- c) Large numbers of tools are available for data validation and improvement of data quality.
- d) Provide easy to use one click to generate effective reports or summary reports with graphs, tables and charts using the design of the data collection tools.
- e) A user-specific dashboard for quick access to the relevant monitoring and evaluation tools including indicator charts and links to favorites reports, maps and other key resources in the system.
- f) Provide different development strategies i.e Online and Offline
- g) Dashboard facility enables to see a bigger picture of health care facilities and able to change/modify according to the changing demands.
- h) Messages enables effectively communicate via feedback messages
- i) Data entry app allows adding, editing and deleting data values with much better efficiency because of user friendly interface. It also allows marking a data value for follow-up and showing data value history.
- j) With Event capture app it is much easier to register, edit and delete an event. Allow to share event in edit mode and to view history of event edits.
- k) Data Visualizer app is used to create a chart by selecting different chart types.
- l) GIS app is used to create thematic maps.

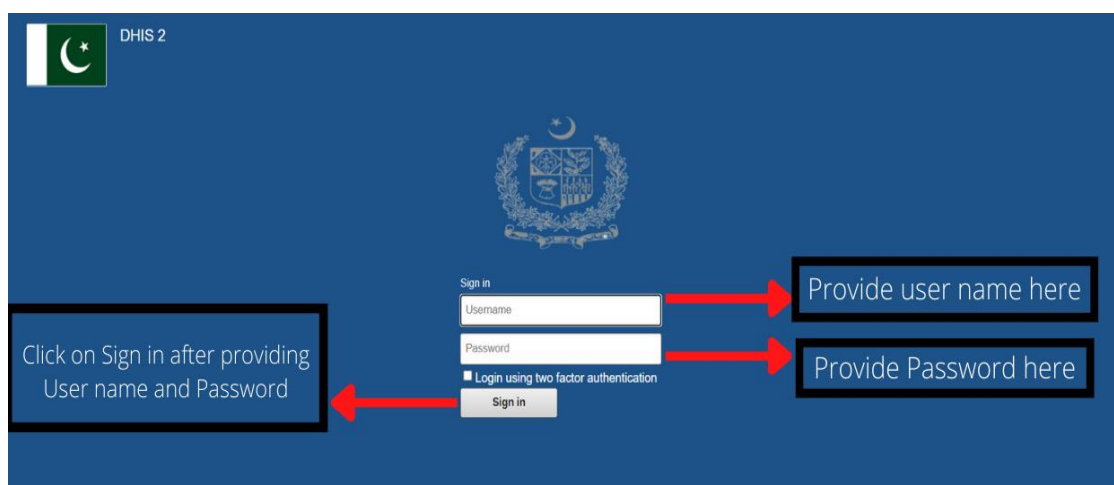

Event reports app create event reports; along with that, it also manages all favorite events.

CHAPTER 2: GETTING STARTED WITH DHIS 2

2.1 Opening DHIS 2:

The DHIS 2 is a web-based application and will be available in an Internet browser when you have Internet connection.

- Open a browser, we recommend Google Chrome
- In the address field, you type in the URL of the DHIS 2 [<http://ict.mmis.site/>]
- The following Screen appears in front of user

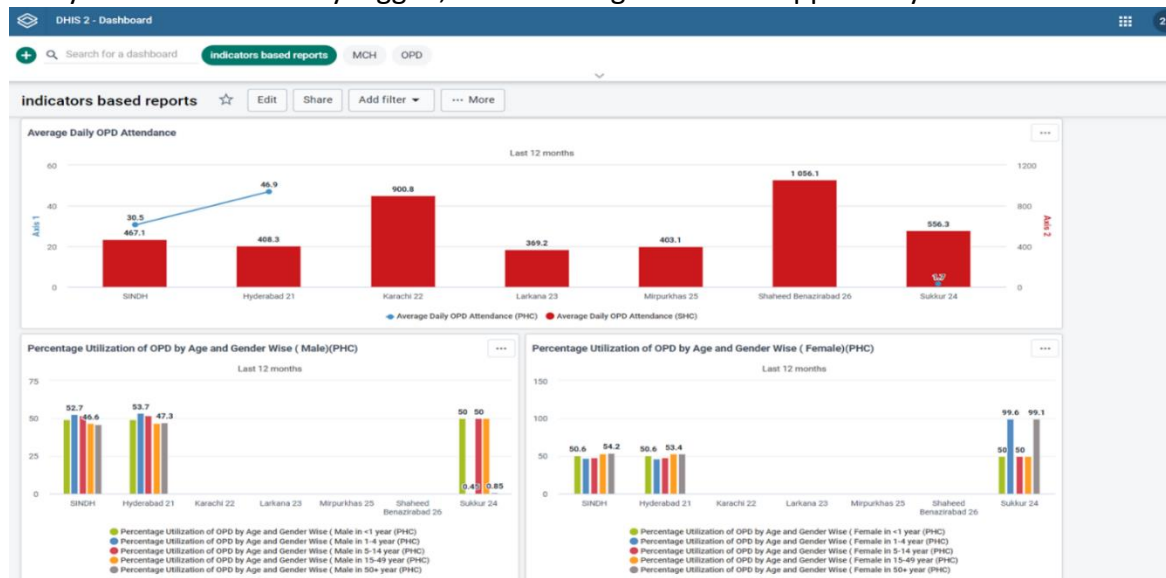

2.2 How to Logging in DHIS 2:

Once you can see the blue screen of DHIS 2 you must enter your user name and password to login to the application.

2.3 Main Interface

Once you have successfully logged, the following screen will appear in your web browser.

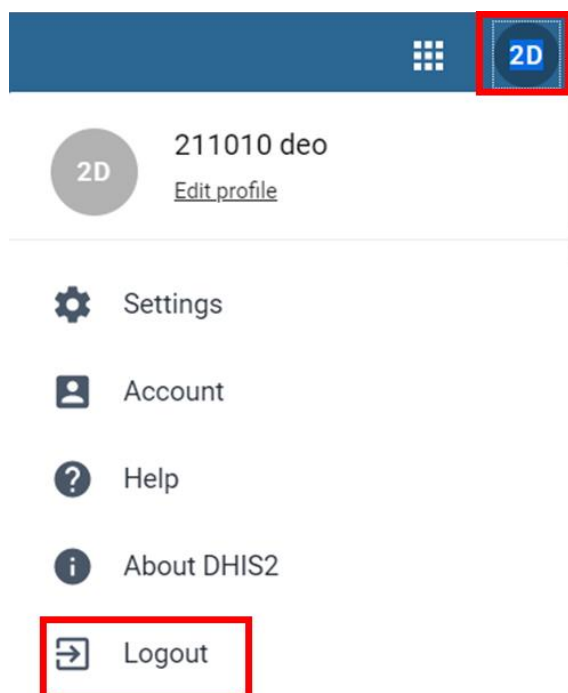

Following are the main Features represented in the Main Screen

- i. At the top, there is a menu bar showing user name and Application Menu.
- ii. Below the Menu Bar, there is a list of available dashboards in the system.
- iii. By Clicking on any Dashboard, its relevant Dashboard consisting of pivot tables, reports and charts will be displayed on the screen.

2.4 How to Logging out DHIS-2

- i. On the right most corner of menu bar click on **user name**, the following screen will appear

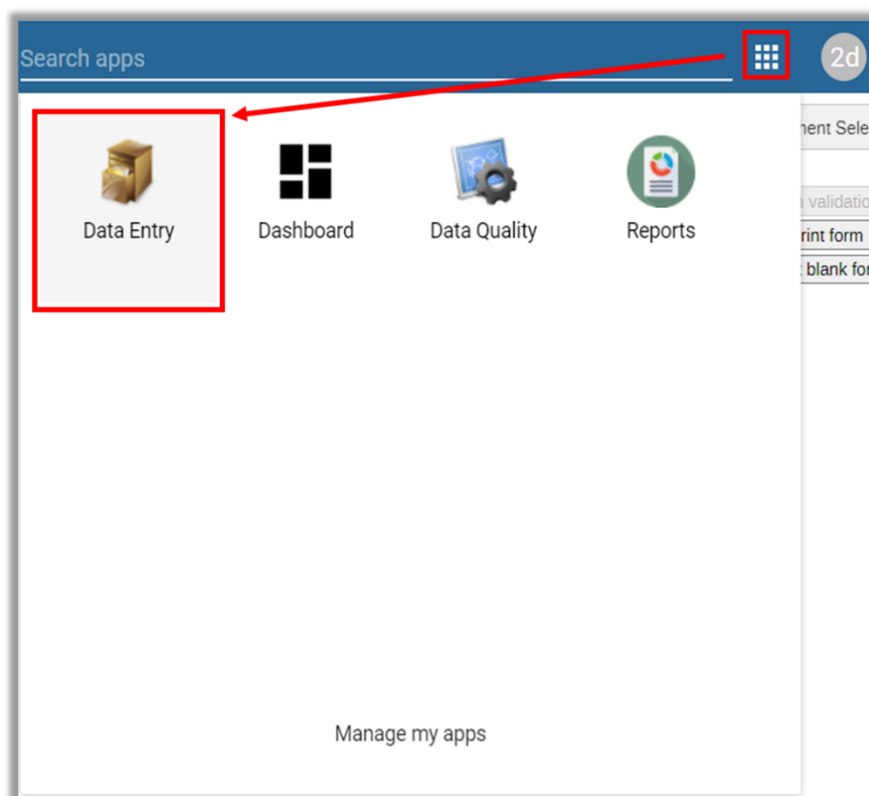

- ii. Click on **logout** to exit DHIS2.

CHAPTER 3: DATA ENTRY

a. 3.1 Data Entry App

The Data Entry app is where you manually enter data in DHIS2. You register data for an organization unit, a period, and a set of data elements (data set) at a time. A data set often corresponds to a paper-based data collection tool. For Data Entry, Select Data Entry from Application Menu.

Click on **Data Entry App** and data entry parameters will be shown on the screen.

b. 3.2 Select the data entry form

To start entering data the first step is to open the correct form. Follow these steps:

- i. **Data Set:** The 'Data Set' will dropdown a list of health care forms, Select Data set from Drop Down List

The screenshot shows the 'Data Entry' interface for 'BHU Yousuf Shah 211010'. The 'Data Set' dropdown menu is open, displaying options: '[Select data set]', '[Select data set]', 'Daily PHC Facility Report Form', and 'Primary Health Care Form'. The 'Primary Health Care Form' option is highlighted in blue. The 'Period' dropdown is also visible, showing '[Select period]'.

- ii. **Period:** The 'Period' will dropdown a list of month and year, Select the Period accordingly. You can jump a year back or forward by using the tab next the period

The screenshot shows the 'Data Entry' interface for 'BHU Yousuf Shah 211010'. The 'Data Set' is set to 'Primary Health Care Form'. The 'Period' dropdown menu is open, displaying options: '[Select period]', '[Select period]', and 'January 2022'. The 'January 2022' option is highlighted in blue. To the right of the dropdown are two buttons: 'Prev year' and 'Next year'.

The required form will get displayed on the screen as shown below

The screenshot shows the full 'Data Entry' form for 'BHU Abdullah Shah 211009' for 'October 2021'. The form includes sections for Identification, Monthly Performance, and Outpatients Attendance.

Section I: Identification

Facility Code	facility 211009	Facility Incharge	
Facility Name	BHU Abdullah Shah 211009	Total Working Days	29

Section II: Monthly Performance (Number or % as appropriate)

	Monthly Target	Performance
1 Total OPD Attendance		0
2 Children <12 months received 1st Measles vaccine		0
3 Antenatal Care (ANC-1) coverage		0
4 Total FP clients (New + Follow-up)		0
5 Delivery coverage at facility		0
6 Monthly report data accuracy		

Section III: Outpatients Attendance (From OPD Register)

	< 1 month	1-11 months	1-4 years	5 - 14 years	15 - 49 years	50 + years	Total

c. 3.3 Entering data

Simply start entering data by clicking inside the first field and type in the value. Move to the next field using the Tab button. Shift + Tab will take you back one-step. The values are saved immediately and do not require any save/finished button click. A **green field** indicates that the value has been saved in the system.

3.3.1 Input validation:

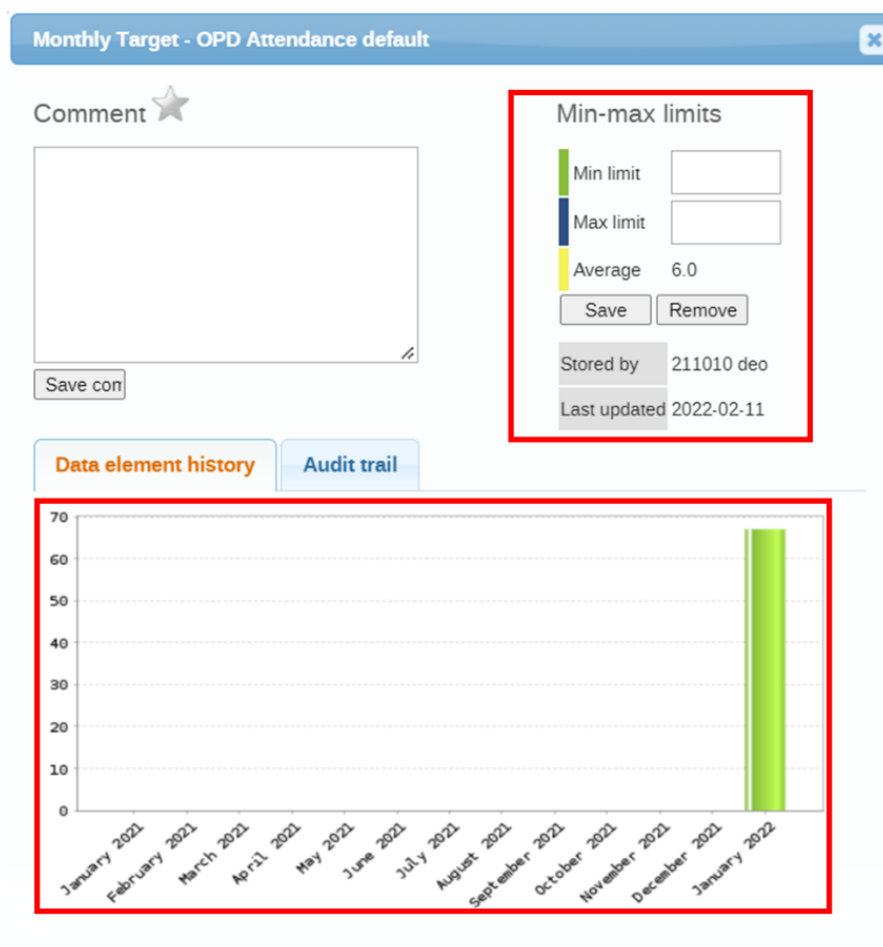

If you type an invalid value, for example, a character in a field that only accepts numeric values, you'll get a pop-up that explains the problem and the field will be colored yellow (not saved) until you have corrected the value.

3.3.2 Disabled fields:

A grey field means that the field is disabled and you cannot enter a value and the cursor will automatically jump to the next open field.

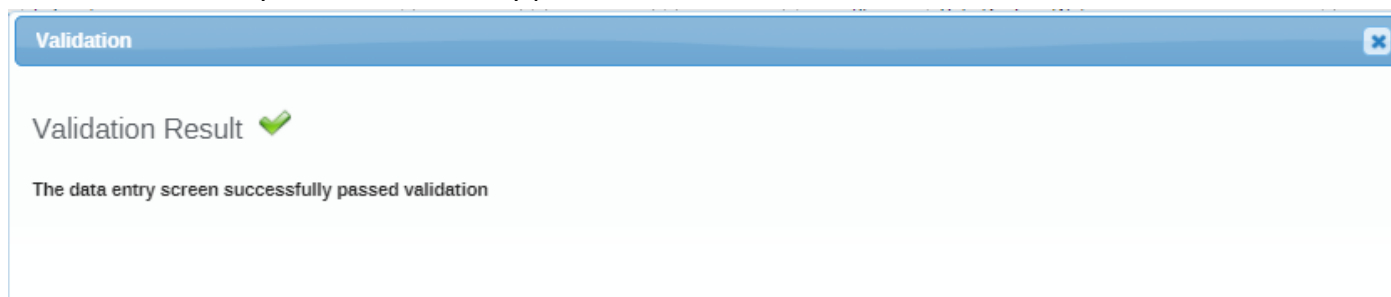

3.3.3 Data History:

By double-clicking on any input field in the form, a data history window opens showing the last 12 values registered for the current field in a bar chart. This window also shows the min and max range and allows for adjusting the range for the specific organization unit and data element combination.

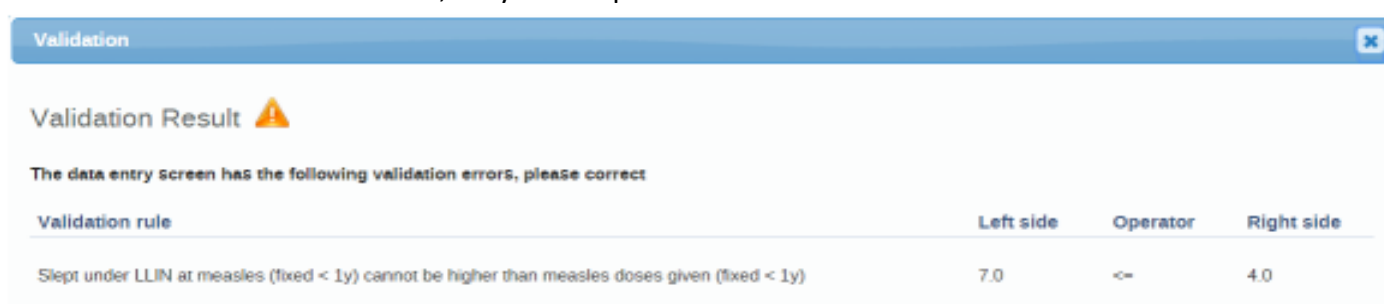

3.4 Validating & Submission Data in the form

After Completion of the form, click Run validation in the top right corner or below the data entry form. All validation rules involving data elements in the current data entry form (data set) are then run against the new data. If there are no violations of the validation rules, you will see a message saying the data entry screen successfully passed validation.

If there are validation violations, they will be presented in a list.

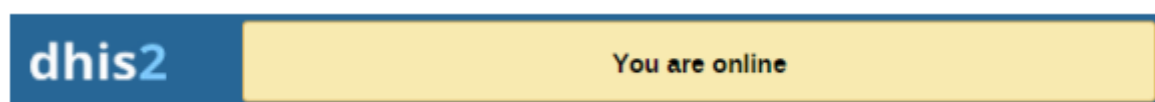

- iii. Correct Validation errors, if any.
- iv. Click 'Complete.' The system uses this information when generating completeness reports for district, county, province or the national level.

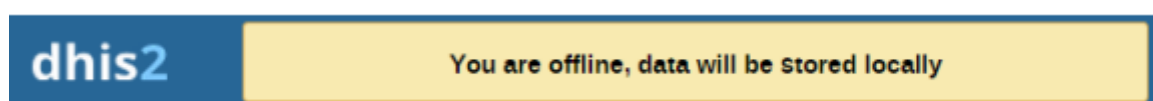

d. 3.5 Network Requirement for Data Entry App

The Data Entry app works even if you don't have a stable Internet connection during data entry. When you don't have an internet connection, the data you enter is saved to your local computer. When the Internet connection is back, the app will push the data to the server. The total bandwidth usage is reduced since data entry forms no longer are retrieved from the server for each rendering. To use this functionality, you must login to the server while you've an Internet connection.

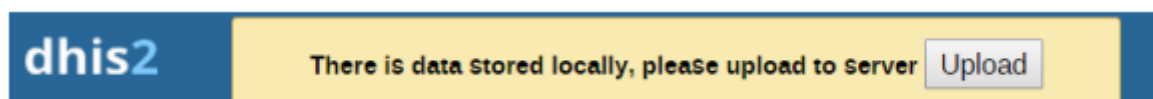

When you're connected to the Internet, the app displays this message at the top of the data entry form:

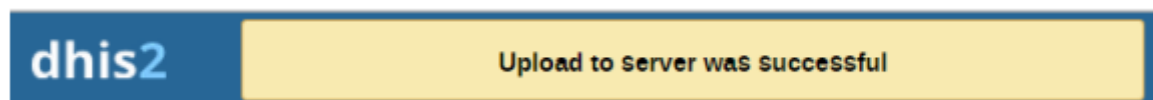

If your Internet connection breaks during data entry, the app detects it and displays this message:

Now your data will be stored locally. You can continue to enter data as normal. Once you have entered all necessary data and the app detects that the Internet connection is back, you'll see this message:

Click **Upload** to synchronize data with the server. When the data has successfully synchronized with the server, you'll see this confirmation message:

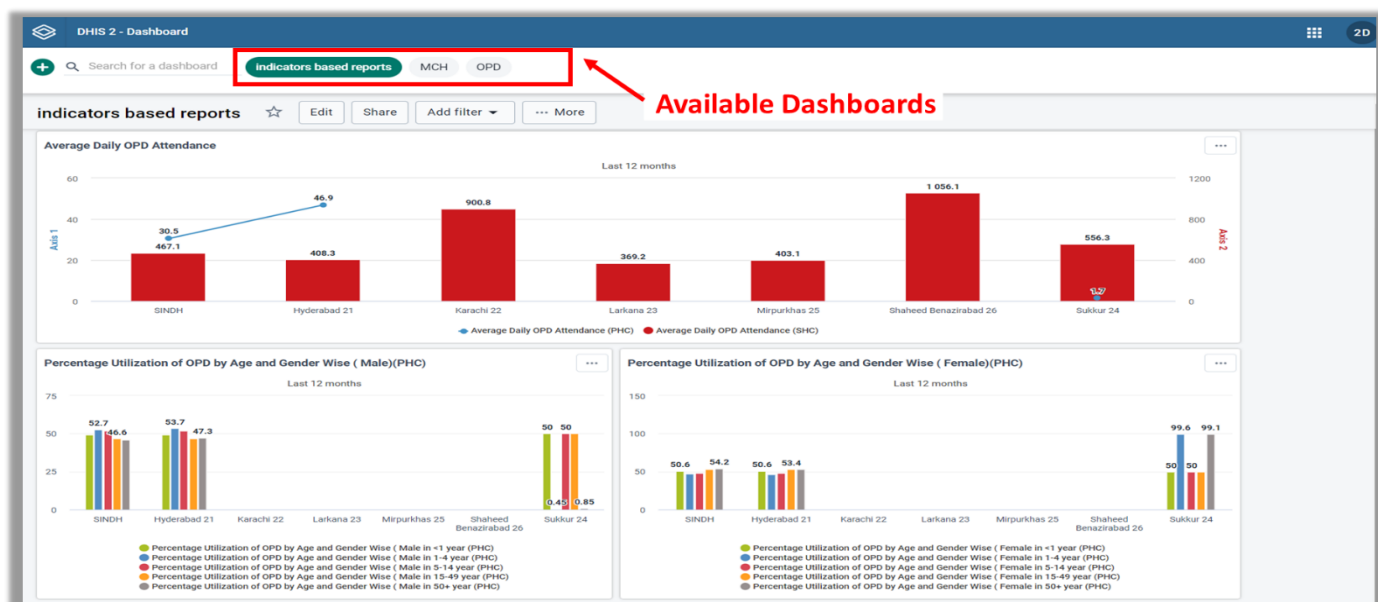

CHAPTER 4: DASHBOARDS

A **dashboard** is a type of graphical user interface, which often provides at-a-glance views of key performance indicators (KPIs) relevant to a particular objective. Dashboards are intended to provide quick access to different analytical objects (maps, charts, reports, tables, etc.) to an individual user. Dashboards can also be shared with user groups.

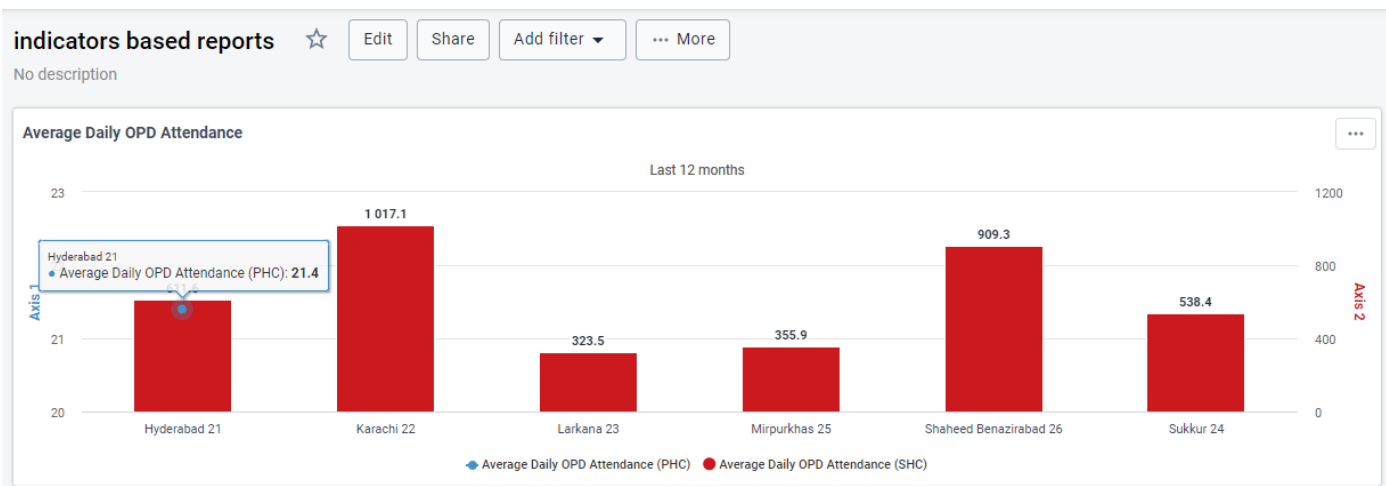

e. 4.1 Available Dashboards

Dashboards have a title, description, and any number of dashboard items. The dashboard items can be of many different types, including charts, maps, reports, tables, resources, messages, and text items. Above the dashboard is the control bar, which shows all your available dashboards, including a dashboard search field.

4.1.1 Indicator Based Reports

All the reports based on indicators are represented in this section.

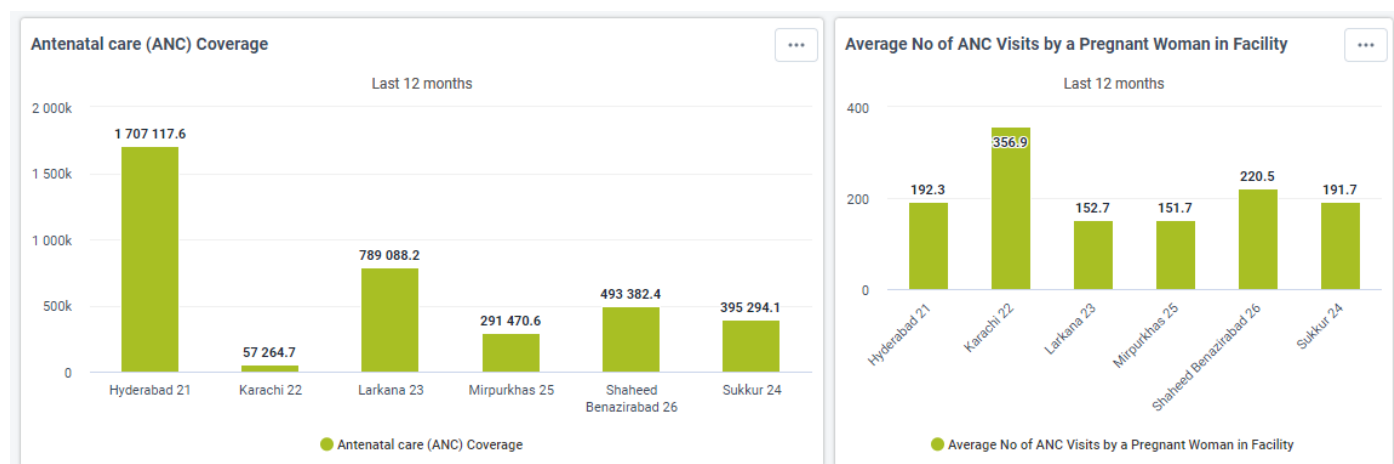

Training Manual – Implementation of DHIS2

4.1.2 MCH

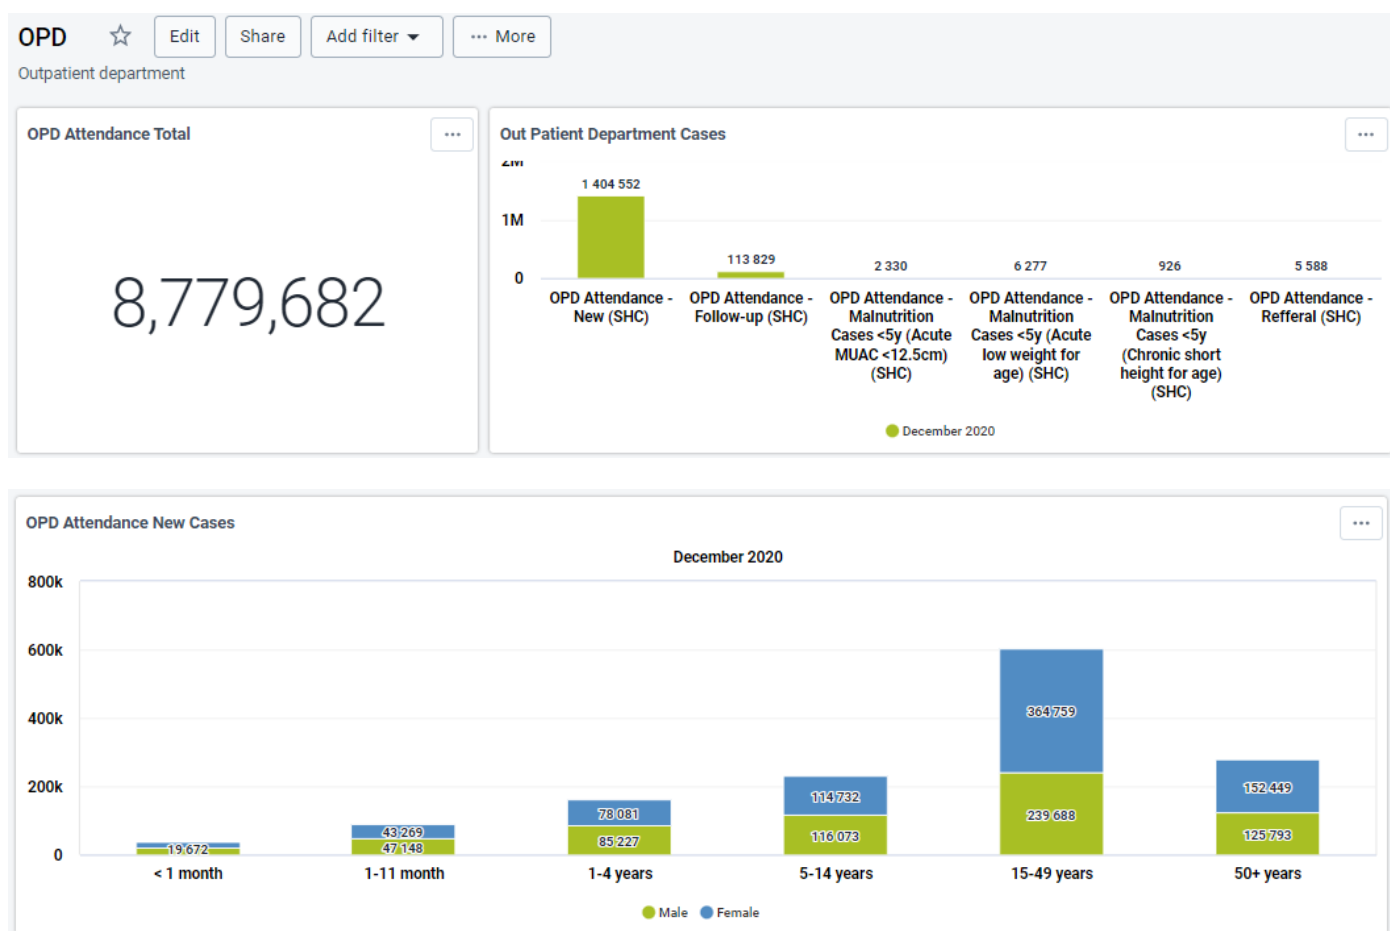

MCH represents all the antenatal and postnatal details.

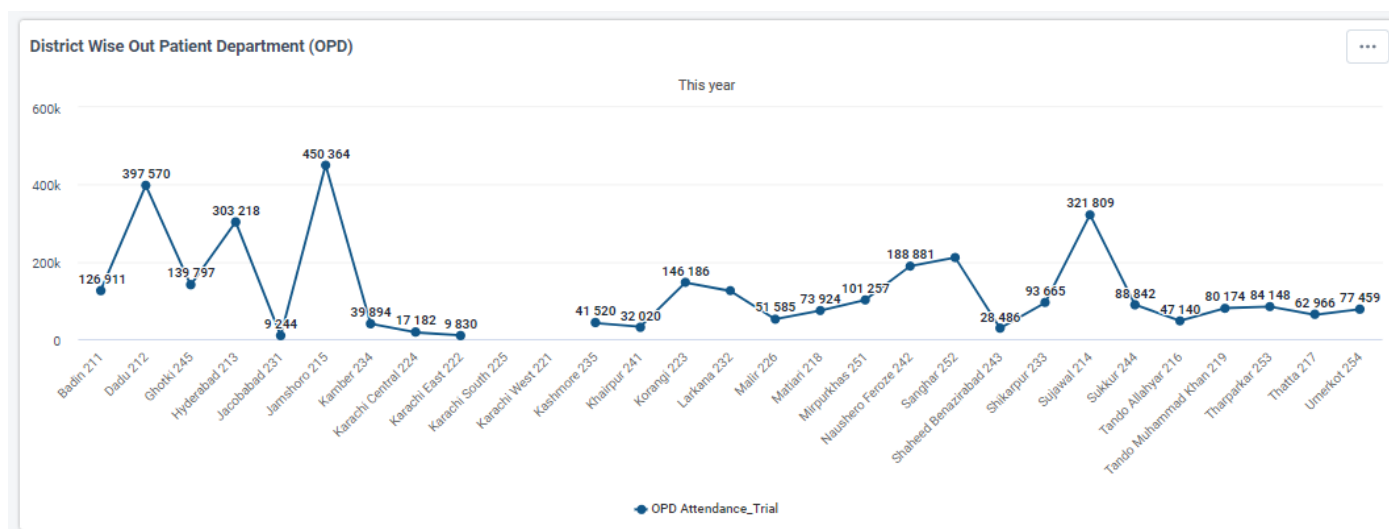

i. 4.1.3 OPD

Details regarding OPD parameters such as OPD attendance, new cases, follow up cases and referred cases are represented in this section.

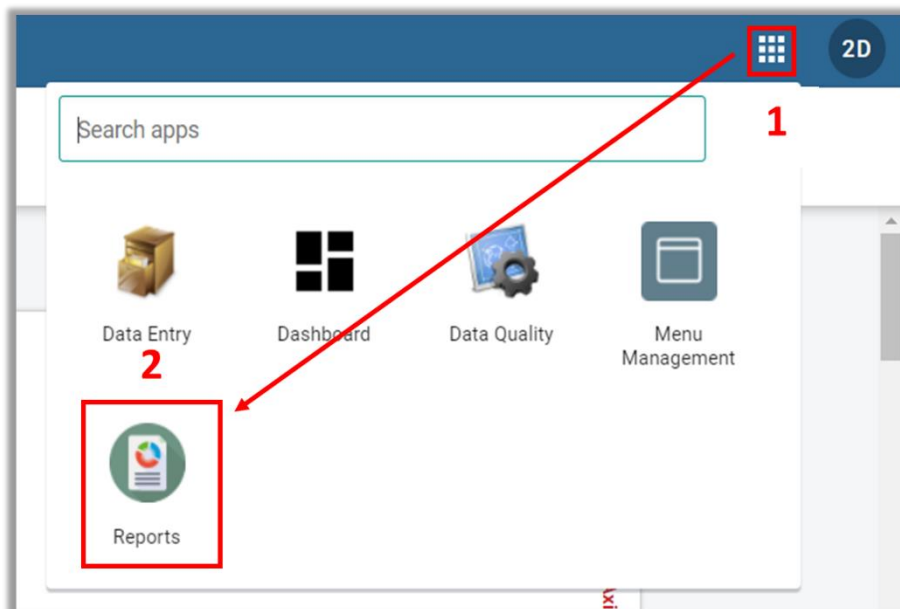

Training Manual – Implementation of DHIS2

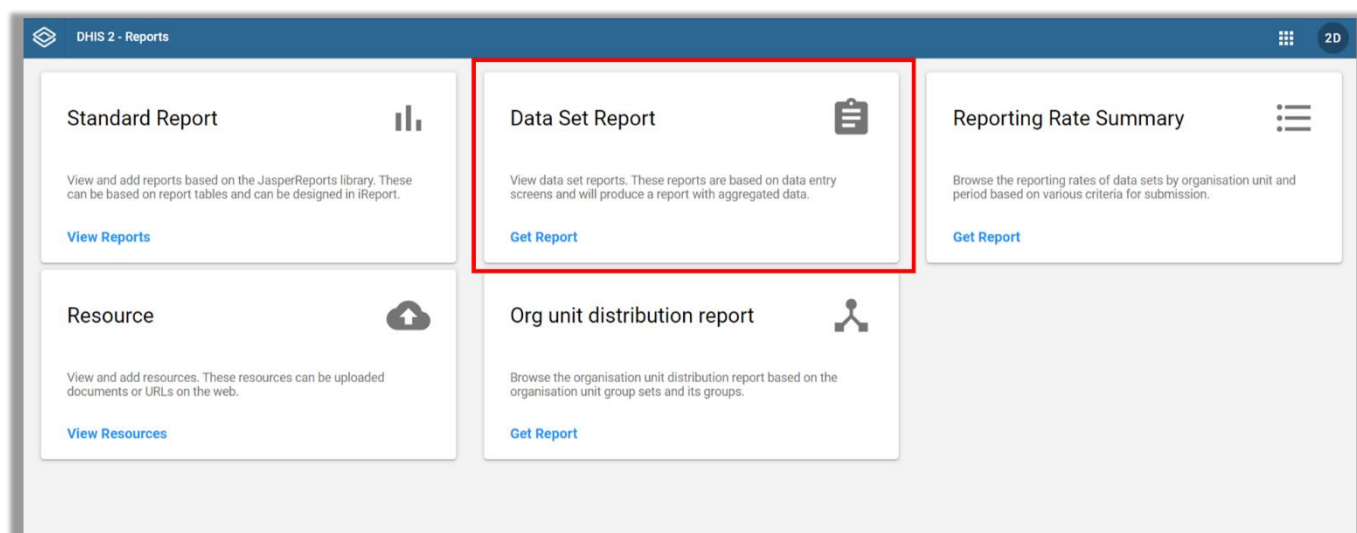

CHAPTER 5: REPORTS

The reports app allows for data set reports. To View reports

- II. Click on report from Application menu.

- III. Select the required report

1.	Total OPD Attendance								
2.	Children <12 months received 1st Measles vaccine								
3.	Antenatal Care (ANC-1) coverage								
4.	Total FP clients (New + Follow-up)								
5.	Delivery coverage at facility								
6.	Monthly report data accuracy								
Section III: Outpatients Attendance (From OPD Register)			< 1 month	1-11 months	1-4 years	5 – 14 years	15 – 49 years	50 + years	Total
1.	Male (New Cases)								
2.	Female (New Cases)								
Grand Total									
3.	Follow-up cases.			4. Referred cases attended					
5.	No. of cases of Malnutrition < 5 Yrs children (Acute (low weight for age)			6. No. of cases of Malnutrition < 5 Yrs children (Acute -MUAC <12.5 cm)					
7.	No. of cases of Malnutrition < 5 Yrs children (Chronic (short height for age)			8. Total Homeo cases					
9.	Total Tibb/Unani								
Section IV: Cases Attending OPD (From OPD Abstract Form)									
Respiratory Diseases			Endocrine Diseases						
1.	Acute (upper) respiratory infections				41.	Diabetes Mellitus		New Cases	
2.	Pneumonia < 5 yrs.				42.			Follow up Cases	
3.	Pneumonia > 5 yrs.				43.	Goiter			
4.	TB Suspects (Cough more than two weeks)				44.	Hypo Thyroidism			
5.	Chronic Obstructive Pulmonary Diseases				45.	Hyper Thyroidism			
6.	Asthma				Neuro-Psychiatric Diseases				
Gastro Intestinal Diseases					46.	Depression			
7.	Diarrhea < 5 yrs				47.	Drug Dependence			
8.	Dysentery < 5 yrs				48.	Epilepsy			
9.	Diarrhea / Dysentery > 5 yrs				49.	Children/adolescent with abnormal behavior			
10.	Enteric/Typhoid Fever				Eye & ENT				
11.	Worm Infestations				50.	Cataract			
12.	Peptic Acid Diseases				51.	Trachoma			
13.	Biliary Disorders				52.	Glaucoma			
Urinary Tract Diseases					53.	Conjunctivitis			
14.	Urinary Tract Infections				54.	Otitis Media			
15.	Renal Calculi				Oro - Dental Diseases				
16.	End Stage Renal Disease (ESRD)				55.	Dental Caries			
17.	Sexually Transmitted Infections (STIs)				56.	Periodontitis			
18.	Benign Enlargement of Prostate				57.	Sub Mucosal Fibrosis			
Vector Borne Diseases					58.	Oral Ulcers			
19.	Suspected Malaria				Injuries /Poisoning				
20.	Suspected Dengue Fever				59.	Road traffic accidents			
21.	Suspected Chikungunya				60.	Fractures			
22.	Suspected Cutaneous Leishmaniasis				61.	Burns			
Vaccine Preventable Diseases					62.			New Cases	
23.	Suspected Measles				63.	Dog bite		Follow up Cases	
24.	Suspected Pertussis				64.	Rabies			
25.	Suspected COVID-19				65.	Snake bite		New Cases	
26.	Suspected Acute Jaundice Syndrome (Hepatitis A & E)				66.			Follow up Cases	
27.	Suspected Chicken Pox				Neonatal Diseases				
28.	Suspected Viral Hepatitis				67.	Birth Asphyxia			
29.	Suspected Neonatal Tetanus				68.	Neonatal Sepsis			
30.	Suspected Diphtheria								

Cardiovascular Diseases				Miscellaneous Diseases		
31.	Ischemic Heart Disease			69.	Fever due to other causes	
32.	Hypertension	New Cases		70.	Acute Flaccid Paralysis (AFP)	
33.		Follow up Cases		71.	Suspected HIV/AIDS	
Skin Diseases				72.	Suspected Mumps	
34.	Scabies			73.	Suspected Naegleria fowleri	
35.	Dermatitis			74.	Pyrexia of Unknown Origin	
36.	Fungal Infection			75.	Leprosy	
37.	Impetigo			Any Other unusual Diseases (Specify)		
Other Communicable Diseases				76.		
38.	Suspected Rheumatic Fever			77.		
39.	Suspected Crimean Congo Haemorrhagic					
40.	Suspected Meningitis					

Section V: Immunization (From EPI Monthly Report of HF)

1.	Children <12 months received 3rd Pentavalent vaccine:		3.	Pregnant Women received TT-2 Vaccine	
2.	Children <12 months received 1st Measles vaccine				

Section VI: TB-DOTS (From TB Register, TB Card TB-01)

1.	Number of diagnosed cases AFB+ve / clinical/extra Pulmonary		3.	Number of TB cases completed treatment during the month	
2.	Number of TB cases started treatment during the month				

Section VII-A Contraceptive Commodities (From Stock Register)

		Balance during the month			
		Opening	Received	Consumed	Closing
1.	Condom (pieces)				
2.	Oral pill-COC (cycles)				
3.	Oral pill-POP (cycles)				
4.	IUCD (pieces)				
5.	Injection DMPA (vials)				
6.	Injection Net-En				
7.	Implant				
8.	Any other (Specify)				

Section VII-B (Family Planning Services)

Indicators	Clients
Total FP Clients	
Total FP New Clients	
Total FP Follow-up Clients	
Total Clients for PPFP Services	
Total Clients for PAFP Services	
Total Clients for Short acting FP Services	
Total Clients for LARCs

More than 3 years							

Section VII-G										
Reasons for removal of LARCs	Implant	IUCDS	Total	Within 3 Months	more than 3 months to 6 months	more than 6 months to 1 year	more than 1 year to 2 years	more than 2 years to 3 years	more than 3 years	Total
Wanted to get Pregnant										
Husband disapproval										
Side effects and complication										
Completion of effective period										
Opting for short acting method										

Section VIII: Maternal and Newborn Health (From Maternal Health & Obstetric registers)					
1.	ANC-1		14.	Assisted Deliveries	
2.	ANC-1 women with Hb. <10 g/dl		15.	Cesarean Sections	
3.	ANC-2		16.	Total Live births	
4.	ANC-3		17.	Live births with LBW (< 2.5kg)	
5.	ANC-4 or More		18.	Preterm Live births	
6.	PNC-1		19.	Birth Asphyxia	
7.	PNC-2		20.	Neonatal sepsis	
8.	PNC-3		21.	Stillbirths	
9.	PNC-4		22.	Neonates received Chlorohexidine (CHX)	
10.	Malnourished Pregnant women (ANC-1)		23.	Neonatal deaths in the facility	
11.	Malnourished Lactating women (PNC-1)		24.	Women Referred for PPIUCD	
12.	PW given Misoprostol Tablets		25.	Early Initiation of Breastfeeding (within one hour of Delivery)	
13.	Normal Vaginal Deliveries		26.	Exclusive Breastfeeding (Only Breastfeeding up to 6 Months)	

Section-IX: Community Meetings (From Community Meeting Register)				Number of Participants	
				Male	Female
1.	No. of community meetings				
2.	No. of Health Education Sessions				

Section X: Diagnostic Services (From Laboratory Register / TB Lab Register/ Radiology Register)							
	Services Provided	OPD	Indoor		Services Provided	OPD	Indoor
1.	Total Lab Investigations			3.	Total Ultra Sonographies		
2.	Total X-Rays			4.	Total ECGs		
Laboratory Investigation for Communicable Diseases							
Malaria			T.B			Viral Hepatitis	
1.	Slides examined		1.	Slides for AFB Diagnosis (New)		1.	Patients screened
2.	Slides MP +ve		2.	Slides diagnosed cases (AFB+ve)		2.	Hepatitis B +ve
3.	Slides P. falciparum +ve				3.	Hepatitis C +ve	
4.	Sides of P. Vivax +ve					HIV	
5.	Rapid Diagnostic Test (RDT)					1.	Patients Screened
6.	Dengue +ve					2.	HIV +ve

Section XI-A: Stock out Report: Stock out of tracer drugs for any number of days this month (From Stock Register for Medicine / Supplies) Write 0 (Zero) for available and 1 (One) for not available

1.	Cap. Amoxicillin		10.	Syp. Paracetamol		19.	Chlorohexidine (CHX)	
2.	Amoxicillin Dispersible Tablet		11.	Inj. Diclofenac		20.	Tab. Misoprostol	
3.	Syp. Amoxicillin		12.	Tab. Chloroquin		21.	Inj. Magnesium Sulfate	
4.	Tab. Cotrimoxazole		13.	Syp. Salbutamol		22.	Syp. Zinc	
5.	Syp. Cotrimoxazole		14.	Syp. Anthelmintic		23.	Zinc Tablet (DT)	
6.	Tab. Metronidazole		15.	I/V Infusion		24.	Anti-Snake Venom	
7.	Syp. Metronidazole		16.	Inj. Dexamethasone		25.	Anti-Rabies Venom	
8.	Inj. Ampicillin		17.	Tab. Iron/ Folic Acid		26.	Metformin	
9.	Tab. Diclofenac		18.	ORS (low Osmolarity)		27.	Methyl Dop	

Section XI-B: Stock out Report: Vaccines. (Write 0 (Zero) for available & 1 (One) for not available)

1.	BCG Vaccine		5	Hepatitis -B vaccine		8	Rota virus vaccine	
2.	Pentavalent vaccine		6	Measles vaccine		10	Anti-Rabies vaccine	
3.	OPV		7	Tetanus Toxoid		11	Vaccine syringes	
4.	IPV vaccine		8	PCV-10 vaccine				

Section XII-A: Indoor Services (From Daily Bed Statement Register)

	Allocated Beds	Admissions	Discharged/ DOR (not on the same day of admission)	Discharged/ DOR on same day of admission	LAMA	Referred	Deaths	Total of Daily Patient Count	Bed Occupancy	Average Length of Stay (ALS)
1. Male									%	
2. Female									%	

Section XII-B: Cases Attending Indoor (From Indoor Register / Obstetric Register)

	Total Number of Admissions	Total Number of Deaths
1. Diarrhea < 5 yrs.		
2. Dysentery < 5 yrs.		
3. Pneumonia <5 yrs.		
4. Malaria		
5. Pulmonary Tuberculosis		
6. Obstetric / Maternal Complication		
7. Other cases		
Total		

Section XIII: Surgeries (From OT Register)

1.	Operations under GA		3.	Operations under LA	
2.	Operations under Spinal Anesthesia		4.	Procedures done without Anesthesia	

Section XIV: Human Resource Data (From Facility Records)						
Post Name/Category		Sanctioned	Vacant		Contract	
1	Medical Superintendent					
2	Senior Medical Officer					
3	Pediatrician					
4	Gynecologist					
5	Medical Officer					
6	Women / Lady Medical Officer					
7	Dental Surgeon					
8	Staff Nurse (Female)					
9	Staff Nurse (Male)					
10	Lab Technician					
11	Dental Technician					
12	X-Ray Technician					
13	Health Technician					
14	Lady Health Visitor					
15	Dispenser					
16	EPI Vaccinator					
17	Midwife					
18	Others					
19	Number of LHWs reporting at HF					

Section XV-A: Revenue Generated (From Receipt Register)				Total Receipt		Deposited
		Total Receipt	Deposited	5. X-Ray	Rs.	
1. OPD	Rs.		6. Ultrasound	Rs.		
2. Indoor	Rs.		7. Dental Procedures	Rs.		
3. Laboratory	Rs.		8. Ambulance	Rs.		
4. ECG	Rs.		9. Others	Rs.		

Section XV-B: Financial Report-for the Current Fiscal Year (From Budget and Expenditure Statement) (For RHC ONLY)					
		Total Allocation for the fiscal year	Total Budget Released to-date	Total Expenditure to-date	Balance to date
1.	Salary & Allowances (Establishment charges)	Rs.	Rs.	Rs.	Rs.
2.	Non-Salary (Operating Expenses)	Rs.	Rs.	Rs.	Rs.
3.	Utilities	Rs.	Rs.	Rs.	Rs.
4.	Medicine	Rs.	Rs.	Rs.	Rs.
5.	General Stores	Rs.	Rs.	Rs.	Rs.
6.	M&R Equip/Transport/Furniture	Rs.	Rs.	Rs.	Rs.
7.	M&R Building Dept	Rs.	Rs.	Rs.	Rs.
8.	O t h e r s	Rs.	Rs.	Rs.	Rs.
9.	Annual Development Plan	Rs.	Rs.	Rs.	Rs.

Section XVI: Ambulance Service (Source facility record)			
Total Number	On Road	Off Road	
		Repairable	Condemn

Section XVII- A: Waste Disposal (Source facility record)								
Daily Hospital Waste (kg)	Method of Waste Disposal (Write ZERO (0) if method is in use & One (1) if method is Not in use)					Incinerator		
	Pit Hole	Disposal Through Municipality	Burnt	Incineration	Any Other Method	Number	Functional	Non-Functional

Section - XVII-B Source of Drinking Water (Source facility record) (Write Zero (0) for Yes and One (1) for No)									
Municipality water Supply	Hand Pump	Well	Filter Plant	Electric Water Cooler with Filter	Mineral Water	R.O Plant		Safe Drinking Water (Certified / Tested)	
						Total Number	Functional Number	Yes	No.
1	2	3	4	5	6	7	8	9	10

Section XVIII: Availability of Services at Primary Health Care (Source facility record) (Write ZERO (0) if service is Functional, One (1) if service is Non-functional & Two (2) if service is Not Applicable)					
	Service Type	Status		Service Type	Status
1	OPD		21	Hb Measurement	
2	EPI		22	Sputum AFB	
3	ANC		23	Dengue RTD	
4	PNC		24	Malaria Microscopy	
5	FP		25	Malaria RTD	
6	BEmONC		26	TB Treatment	
7	CEmONC		27	Nutrition Services	
8	Health education		28	Measurement of Nutrition Status of Children <5	
9	Indoor		29	Measurement of Nutrition Status of Pregnant Women	
10	Labour Room		30	Measurement of Nutrition Status of Lactating Women	
11	Minor OT		31	Blood Transfusion	
12	Major OT		32	Dental Services	
13	Delivery		33	Public Toilets	
14	C-Section		34	Water Supply	
15	Laboratory		35	Safe Drinking Water	
16	Ultrasound		36	Electricity / Transformer	
17	X-Ray		37	Generator	
18	Dental X-Ray		38	Solar System	
19	ECG		39	Waste Management	
20	Blood screening (Hepatitis B&C, HIV)		40	Ambulance	

Section XIX – Achievements/ Issue
